

SIMRAN CHAUDHARY

FullStack Developer

☎ +91-7042908656 ✉ simranchaudhary302@gmail.com 🔗 <https://www.linkedin.com/in/contactsimranchaudhary>

Summary

Full Stack Developer skilled in HTML, CSS, JavaScript, React, Node.js, and MongoDB, with experience building responsive and interactive web applications. Strong understanding of frontend design, backend development, and REST APIs. Passionate about solving real-world problems through scalable and efficient web solutions.

Technical Skills

Languages: JavaScript, Java, Python, C

Frontend: HTML5, CSS3, React.js

Backend: Node.js, Express.js

Database: MongoDB, SQL

Tools: Git, Github, IntelliJ IDEA, VS Code, Netlify, Vercel

Projects

DevLoom - A Code Editor | *HTML, CSS, JavaScript, CodeMirror*

May 2026 – June 2026

- Created DevLoom, a responsive online code editor using HTML, CSS, and JavaScript, enabling users to write, edit, and preview HTML, CSS, and JavaScript code in real time within a single interface.
- Crafted features such as live preview rendering, multi-panel editor layout, syntax-friendly editing environment, responsive UI, and dynamic DOM manipulation to improve coding experience and usability.
- Enhanced practical skills in front-end development, event handling, API integration concepts, responsive web design, debugging, and project deployment using GitHub Pages while building a real-world developer productivity tool..

Parallax Website | *HTML, CSS, GSAP and JavaScript*

January 2026 – January 2026

- Developed an interactive Parallax Scrolling Website with layered animation and smooth scrolling effects.
- Constructed JavaScript Scroll events and CSS positioning to create dynamic visual transition.
- Optimize website structure and styling for better performance.
- Deployed the project online for live demonstration.

Weather Web Application | *HTML, CSS, JavaScript, Weather API*

February 2026 – February 2026

- Engineered a real-time weather application that fetches weather data using API integration.
- Produce dynamic UI updates to display temperature, weather conditions, and location data.
- Utilized asynchronous JavaScript (fetch API) for retrieving live weather information.

Todo-List Web Application | *HTML, CSS, JavaScript and LocalStorage*

December 2025 – December 2025

- Programmed a task management web app to perform CRUD operations.
- Use LocalStorage to save user tasks without backend.
- Designed responsive UI for better user experience.

Awards & Certifications

- **MERN Stack Web Development Certificate – (2024):** Completed JavaScript, React.js, MongoDB, Express.js, Node.js, REST APIs and FULLStack application development.
- **Data Structure and Algorithms – (2025):** Learned problem solving Arrays, Linked lists, Stack, Queue, Trees, Graphs, Recursion and algorithm optimization.

Education

Bachelor of Technology (B.Tech)

Echelon Institute of Technology, Faridabad

Computer Science Engineering

2023-2027
